John

Goal-Oriented Digital Transformation Senior with 3 Years of Data Experience

I am a college degree graduate currently looking for a full time or part-time job and seeking a challenging career with a progressive organization that provides an opportunity to capitalize on my technical skills & abilities in the field of information technology (IT).

Work Experience

Senior Data Analyst
Vita-lize Distributions Inc. - Valencia
September 2020 to March 2023

Data Analysts use specialist software tools to generate and analyze large-scale data for businesses, find relationships between figures, and discover the factors that influence business growth. Through this, they are able to help stakeholders make important business decisions. Their insights can be used to improve productivity, identify new trends, and better cater to the needs of customers. Data Analysts work in a wide range of industries including information technology, marketing, finance, and retail.

Tasks and duties
• Providing data-driven solutions to company problems.
• Synthesizing data into reports to communicate findings with clients.
• Using software tools to gather and organize data.
• Developing and updating data collection systems.
• Liaising with data scientists and business analysts to interpret data.

IT Personnel
